CERTIFICATE

Confirms that

Shchyrova Yelyzaveta

studying disciplines:

- Databases and information systems (5 academic credits);
- Organization of databases(5 academic credits)

within

Field of Study: 12 Information Technologies
Program Subject Area: 122 Computer Science
Educational–Professional Program: «Informatics»

has demonstrated SQL knowledge level: ADVANCED

Alexey Matikaynen,
CEO, Sytoss s.r.o

The proficiency level of the SQL language is confirmed based on the results of testing on the Sytoss Training Platform for SQL Education. The tests covered the most important SQL topics: group by, join, subquery, correlated subquery, null, case, union, over, CTE, view, recursive queries, insert, delete, update, etc. This platform was developed by Sytoss s.r.o as part of cooperation between SYTOSS s.r.o and the Department of Informatics, Kharkiv National University of Radio Electronics.
